

Sunflower Competition

Information Sheet

Welcome to our sunflower growing competition, we would love to have you join the fun.

Grow your beautiful sunflower and use the attached sheet to send us a photo by 26 January 2024 to be eligible for prizes.

1 | PLANTING

In NZ sunflowers can be planted from August to January but they like it when the soil temperature is between 10 and 30 degrees. In Canterbury sunflowers can only get planted outside when ALL chance of frost has passed.

For the purpose of this competition, to meet the timelines use the dates below and help get a great result:

- Plant your seeds **INSIDE** around the 1st of September 2023- in a pottle 2.3cm deep.
TIP: Use seed raising mix for best results
- Once all chance of frost has passed (around 1 October 2023) plant your seedlings outside.
- Dig a hole and fill it with some good soil and compost. Plant your seedling in this hole, again about 2.5cm deep.
- Keep well watered and stake up when 1 meter tall so that the winds do not blow them over.
Tip: if you plant your seedling outside amongst other plants it will stretch tall to reach the sunlight. If you plant your seedling in the open, it will put its energy into developing a larger flower head, because it won't have to compete for sunshine with the other plants.
- Keep an eye on our facebook pages for timing, tips and reminders
